jy20dw W. POLLARD, Secretary.

TO THE SHAREHOLDERS OF THE QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time. JAS. REID, President.

WARNER'S SAFE KIDNEY & LIVER CURE

(Formerly "Dr. Craig's Kidney Cure,")

Is a Vegetable Preparation which is the *only cure remedy in the world for Bright's Disease and Diabetes*, and is equally effective in all other diseases of the Kidney, Liver and Urinary Organs, and disorders caused by these.

Two compounds: For the cure of Diabetes call for **Safe Diabetes Cure**, and for the cure of Bright's and the other diseases call for **Safe Kidney and Liver Cure.** Price, $2.00 a Bottle.

TESTIMONIALS.

The Rev. J. E. RANKIN, D.D., of Washington, D. C., certifies that he has known of several "permanent cures of diseases of the kidneys and urinary organs" by the use of the Safe Kidney and Liver Cure, and adds "I do not doubt that it has great virtue." D. W. BARTINE, M. D., D. D., of East Orange, N. J., certifies that it cured him of Bright's disease in two weeks. Rev. C. A. HARVEY, D. D., Secretary of Howard University, certifies: "I am convinced that no remedy heretofore used or described can be held for one moment in comparison with this." E. W. NEFF, 102 Bugg Street, Detroit, Mich., certifies that it completely cured him of a chronic liver complaint after numerous other remedies had failed. These are abbreviated sample testimonials.

Prof. GREEN, an eminent allopathic physician of the South, recommended in the Medical Record that all physicians administer this remedy for Kidney Diseases in preference to any thing else. R. CAULKINS, M.D., of Rochester, N.Y., says he would prescribe the remedy to all whose Kidneys and Liver are badly affected. The Richmond and Louisville *Medical Journal* said it had done more for the cure of Kidney Diseases than any other remedy.

☞ Warner's Safe Bitters, Safe Tonic, Safe Pills and Safe Nervine are also superior remedies, unequalled in their respective fields of disease.

☞ Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

THE LEGAL DEADLOCK.

The legal deadlock has attracted considerable attention and has produced, as was not unnatural, a great diversity of opinion. We have laid before our readers the views of "Lex" and "Caus" on this knotty point, and have published at length the judicial opinion of the Chief Justice on a summons that came before him in Chambers. With these views before them the conclusion to which all unbiased persons must arrive at is that the Governor and Council have been most lamentably neglectful of the duties which they assumed, when the Judicature Act was passed, of making rules of practice after having taken away from the judges the powers which had until then been vested in them for that purpose. "Caus" in his apology for the government says that in the English Law Ordinance, County Court Ordinance and Civil Procedure Ordinance terms similar to the Lieut.-Governor's proclamation as to the rules are used, and that the judges have found no difficulty in applying a meaning to the term, "applicable" or "not inapplicable." This is the argument of one who evidently is ignorant of the meaning of words. The judges at the time these various ordinances became law had statutable authority to make the necessary rules to carry out the law and could declare the procedure by which these statutes were to be made available. In the Judicature Act it is provided that the Governor-in-Council alone can declare what rules are applicable to this Province. The judges cannot set aside the law and declare what rules they will adopt and what reject. Their hands are bound, and if the Governor-in-Council does not declare what rules govern the procedure the judges cannot do it. Independently of this view there is another point quite as serious and quite as important to the public, which is that the laws should be declared in plain and simple language and not left to argument and discussion by using terms such as "applicable or not inapplicable." Nothing has led to more litigation than the use of these words in legislation. The merits of a cause are often forgotten in the discussion as to whether a remedy is applicable or not. The judges themselves occasionally differ in their views on this head. The legal fraternity differ and the unfortunate litigant has to provide the funds to get a declaration of what the law is when a little trouble on the part of our lawmakers would have rendered the expenditure unnecessary and a deadlock an impossibility.

Unquestionably a fruitful source of all the trouble is the ambiguity of the British North America Act, which, it has been held, gives provincial governments a certain degree of authority over the judges. This authority (if it really exists) we consider to have been most unwisely placed. The judges should occupy a position beyond the reach of provincial governments. They are appointed and paid by the Dominion and should be under the direction of the Dominion and no other. Another cause of the deadlock is said to be the interference of the Lieut.-Governor who (perhaps unfortunately for the province) is a lawyer. Rightly or wrongly, to His Honor is ascribed the credit or discredit of tinkering all sorts of legal pots and pans. More than one of the legal measures that have found no favor at Ottawa are said to have emanated from him, and as the province happens to have for attorney general a gentleman who is apparently without sufficient industry or ability to lick into shape the lieut.-governor's ideas—an attorney general who has surrounded himself with incapables, and who is quite willing to get anybody to do his work for him, no one need wonder at the result. Disallowed bills by the dozen; abortive criminal trials and finally a legal deadlock have characterized the career of the existing government since its organization. The Judicature Act may or may not be a good measure; but its usefulness cannot be tested without the necessary rules which the judges *cannot* make and the government *have not* made. As the Chief Justice points out, the country is called upon to accept a radical change in the law, practice and procedure at less than a week's notice, and is then left in the dark as to the mode in which the change is to be effected, or the rules that are to guide the practice. "What is to be done?" is a question that is asked by every one—because everyone is interested in the proper administration of law. At present it is the legal profession whose wheels have ceased to revolve and whose interests are most immediately concerned. But how long a time will elapse before the business community will find itself injuriously affected by this deadlock in law? How long will it be before delinquent debtors will snap their fingers in the faces of long-suffering creditors and defy them to do their worst—the plain fact being that they can do nothing at all. "What is to be done?" Can any pressure be brought to bear upon the attorney-general that will induce him to do his duty under the Act and make the necessary rules? Business men stand in slippery places to-day in consequence of this stoppage, and it behooves them to come together and devise means for self-protection. Were a deputation of merchants to wait on the attorney-general and present a statement of their position, would any good be accomplished?

THE PROPOSITIONS OF THE POWERS TO THE PORTE.

According to a Paris dispatch England proposed to Turkey to cede Dulcigno or carry out the protocol of last April. The porte declined to cede Dulcigno and asked a delay of three months to carry out the Turco-Montenegrin convention. The powers refused and insisted on immediate execution of the convention. While negotiations were pending, England, anticipating the refusal of the porte, took the initiative in effecting an understanding between the powers and made verbal proposals to five other cabinets for sending to Turkish waters vessels of each power, carrying troops for land service. Austria accepted, but objected to sending troops for disembarkation and demanded that the fleet only consist of two or three vessels from each power. Russia adhered to these proposals without reservation. Other powers made a reservation on points of detail, but on the whole a complete understanding was established on the expediency of naval demonstrations Negotiations on the Montenegrin question are perfectly distinct from those in regard to the Turco-Greek frontier. The latter negotiations are more active. When the porte has replied to the collective note, if the reply be negative, it is considered possible that the naval demonstration will aim at its settlement as well as of the Montenegrin question. Ambassadors at Constantinople are making great efforts to induce the porte to immediately accede to the demands of the powers; but the porte is little disposed to comply. The porte has made confidential overtures to several powers, more particularly Russia, England and Germany, the object being to prevent accord among the powers; and although this policy has not had the desired result, it is feared that the porte still cherishes the hope of succeeding, and thus continues in an unyielding spirit.

AMERICAN AGRICULTURAL RESOURCES AS SEEN BY AN ENGLISH COMMISSION.

The report of CLARE, SEWELL, READ and ALBERT PELL sent by the royal agricultural commission to the United States and Canada to enquire into the state of agricultural is published. They say that while many prevailing conditions are favorable to America in the contest for agricultural supremacy, still drawbacks exist which tell in favor of England. Severe winters suspend agricultural employment, drouths, injurious insects, and in prairie country, short supply of water endanger crops. Western America possess singular advantage for stock raisers, while the middle states affords them excellent pasturage and the eastern states good markets. The allotment of land and termination of free ranges in the west will increase the cost of cattle raising, but increased consumption by growing population will enhance prices. The success and extension of the growth of blue grass opens fresh prospects for the grazier and will in time bring the improved turf under the hoof of thoroughbred stock, or at least of highly graded cattle.

English Mail.

Mr. Poynder, of Hartham Park, Wilts, has returned the half-year's rent to his numerous farm tenants. In the southern part of the same county, Lord Pembroke has returned 15 per cent. to his tenants on the Wilton Abbey estate, which extends over 40,000 acres.

Two of O'Connell's contemporaries have recently joined the majority. Mr. Battersby, Q.C., was a fellow barrister with the great tribune, and Mr. Ray, to whom the most famous of his epistles were addressed, shared his triumphs and his downfall, having been a fellow prisoner of his friend and patron.

In London fruit or dessert is no longer placed on the table till after dinner; only handed about. This is very advantageous to the florists, as many more flowers are required. The cost of the floral decorations for a fashionable ball is about £300. The other day, one lady who wished to outdo another who had surprised all London by the wealth of her flowers, paid £800.

Since the change of Ministry Lord John Manners has applied for one of the pensions given to ex-Cabinet Ministers who have held office for a certain number of years, and who find themselves unable to keep up a suitable position without the aid of a grateful country. Lord John will receive £1,000 a year, as he is only entitled to a second class pension. The other recipients at the present time are Lord Beaconsfield, Sir George Grey, Mr. Walpole, and Mr. Milner-Gibson.

Sir Wilfrid Lawson is an apostle of "teetotalism." The other night, at an entertainment, Lawrence Oliphant, the hero of a more checkered career than that of the wildest romance, who bears a marked resemblance to Sir Wilfrid, was mistaken for him by an adulatory stranger. Having humored the mistake for a few moments, Mr. Oliphant poured out and slowly drank a bumper of champagne, and the expression on the face of the disciple would have been a treat to Hogarth.

The Prince of Wales and the Dukes of Edinburgh and Connaught went together to the House of Peers on the evening of June 25, in order to vote for Lord Houghton's bill legalizing the marriage with a deceased wife's sister. When the bill was called up for its second reading, the Prince of Wales presented from the Convention of the Royal and Parliamentary Burghs of Scotland a petition numerously signed in favor of it. His action was followed by Lord Houghton, who presented in favor of the bill a huge petition signed by 12,500 women of Leeds.

In England about one in twenty-one of the population has an account at a savings bank; in Wales, one in forty; in Scotland, one in twelve; and in Ireland, one in 100. The amount owing to depositors on November 20, 1879, was equal to an average of £1 11s 4d per head of the population in England, 18s per head in Wales, £1 17s 5d in Scotland, and 7s 10d in Ireland. Thus statistics sustain the popular reputation of the Scotchman for canny carefulness; there are more people north of the Tweed who make and put by savings than in any other part of the kingdom, and they accumulate a larger amount.

Truth says;—Lord Norton has not come well out of his correspondence with Mr. Bradlaugh. There is no doubt that he did say that Mr. Bradlaugh ought to be flogged in Trafalgar-square and he said it at the door of the House of Commons and in Mr. Bradlaugh's presence. In his letter he implies that the observation was a general one and that consequently Mr. Bradlaugh has no right to be offended. But supposing that Mr. Bradlaugh had said at the door of the House of Lords and in the presence of Lord Norton, "the elevation to the Peerage of the most muddle headed jackass in the House of Commons is an insult to the intelligence of the country," he could hardly have pleaded that the observation was not a personal one to his lordship.

There was recently a great service at Lincoln Cathedral in connection with the Sunday schools of the city. The Nonconformists of Lincoln had requested that the children of their schools might attend and the Dean and Chapter replied that they would be very happy to see them. It sounds incredible, but some of the parochial clergy besotted with bigotry and intolerance, declined to permit their schools to be present in a congregation of mixed sects, and this notwithstanding the fact that the Bishop—that unflinching champion of old Church and State principles—had not only expressed his hearty approval but had intimated his intention of himself preaching on the occasion. The service was short and simple, consisting of three hymns, an impressive address from Chancellor Lecke and a few, earnest, eloquent sentences from the venerable bishop.

Truth says: "The wholesales do not visit the retails at Clapham," said Mrs. Potiphar, in her "curtain" lectures. And it would appear from the following advertisement that the children of the upper classes cannot even meet at church those of the middle and lower classes at Sydenham. But who, I should be glad to know, decided upon the right of each child to rank amongst the Sydenham upper classes? Was it the Bishop of Madagascar or the beadle? "N.B.—The afternoon service on June 27 will be for the children of the upper classes, when the Bishop of Madagascar will preach to them on missions. Tickets for this service may be had of the vicar or the churchwardens of St. Matthew's. Each child is requested to bring a small coin for the Madagascar mission, and a cut flower, which will be left in the church, and forwarded to the Children's Hospital."

General Sir Evelyn Wood, who has acted as escort of the ex-Empress Eugenie during her trip to South Africa, is reported not to touch a penny of pay while with her.

The oldest survivor of the Battle of Waterloo at Chelsea Hospital, an old 42nd man, John M'Kay, is 95 years of age. He also served in the Peninsular and was wounded at Badajoz.

At a recent children's service at Berkeley Chapel, Mayfair, the Princess Albert Victor, and the Princesses Louise, Victoria, and Maud of Wales presented offerings of flowers and fruit, to be sent to the London hospital.

Sir John Holker, Lord Beaconsfield's attorney-general, was placed on the Bradlaugh committee as an opponent of the Agnostic. To the surprise of all his speech was in favor of allowing the M. P. for Northampton to affirm. Mr. Hopwood also completely changed his front to Mr. Bradlaugh's side.

A convict at Portsea, under sentence for forgery, has just given himself up as the Hoxton murderer in 1872, when an elderly woman, Mrs. Squires, and her daughter Christiana, were found to have been cruelly murdered, their skulls having been smashed in by blows with a hammer. It is understood that the prisoner shows very clearly how it was that he was not seen to enter the premises. It was his first attempt at robbery and owing to his being under the influence of drink, fright and excitement he found himself so surrounded with difficulties that he could only extricate himself by committing the double murder. His original purpose was to rob the woman's till, but after the murder he ran out of the shop without attaining his object.

"Pocket-handkerchief" dresses were very conspicuous at Ascot and were universally considered very pretty and very becoming.

One of the chief attractions at the recent fashionable and royal bazar in London was the refreshment and tobacco bar where the beautiful American, Mrs. Cropper, drew around her large crowds who struggled with one another in their anxiety to be among the first customers of this charming waitress.

Says the London *World*:—Sir Garnet Wolseley has certainly much reason to complain of his reception and treatment on his return from the Cape. He really did some thoroughly good service out there for which the G.C.B. would have been no extravagant reward. But worse than this he has been quite ignored by the new official world. Not a soul has taken the slightest notice of him; he has not been sent for or consulted by anybody, although there ought to be many questions pending on which his recent experience would be valuable aid.

ARNPRIOR, July 15.—A terribly destructive fire broke out here about 2:30 this morning. Twenty houses were burned, including many stores in the business centre of the town. The flames spread rapidly, and were not brought under control until everything in their course was consumed.

WINNIPEG, July 14.—The banquet to the Hon. John O'Connor, Postmaster-General, given by the Liberal-Conservative Club on Saturday evening was a success. Over one hundred guests sat down to dinner. Mr. O'Connor, in his speech announced the extended new policy of the government in regard to the construction of the Canadian Pacific Railway, and argued in favor of its early completion. He started for Ottawa on Monday.

Intelligence comes of a sad drowning accident at Kingston. A large party of ladies and gentlemen had taken passage on the steamer Alexandra for Montreal, whence they were to take another boat for a trip to Lake Champlain. Mr. R. Potter and his only sister, of Belleville, were of the party. In stepping aboard the steamer at Kingston, Miss Potter fell overboard and was drowned.

A young man named W.G. Soule has invented a pair of shoes with which he walks upon the water. Paul Boyton, clothed in his life-preserving apparatus, flounders in it. Young Soule crossed the Harlem River a few days ago in his shoes, walking in an upright manner, and maintaining his balance without difficulty.

A mysterious packet was sent to the office of Anthony Comstock, special agent for the New York Society for the Suppression of Crime, in May last. Comstock was not in, and his stenographer, Arthur Ducrel, received it and noticed that it had a peculiarly obnoxious smell. After placing it down Ducrel washed his hands. Ducrel is now dangerously ill, and his physicians say blood poisoning is the cause. When the package was opened it resembled sticking-plaster, and the stench was so great that the office had to be disinfected. The physicians are greatly puzzled over the case. The young man's whole body is covered with eruptions, and though formerly strong and healthy he is wasted away to almost a skeleton, and is now in a very critical condition. Comstock thinks he knows the guilty parties, and will soon have them in custody. It is believed their purpose was to effect Comstock's death, believing he would open the package.

BROOKLYN, July 8.—A well dressed, handsome lady informed Judge Neilson yesterday that she had just discovered that the man she married three years ago was her brother, the natural son of her mother. Both were born in Sweden. The woman came to this country some time ago. The boy, who went by another name, and who lived in the family as an adopted son, was left behind. Afterwards he came out to this country and she married him. The mother did not know of the marriage till recently. The judge told her she had been guilty of no offence in the sight of God. He directed her lawyer to begin a suit for annulment of the marriage and the custody of her daughter. The lady appeared greatly distressed.

NEW YORK, July 7.—Mrs. McCourt, aged 35, and three children, aged 9, 7, and 3, were found yesterday in a shed four feet long by three-and-a-half wide in the yard of the Jewish Synagogue on 115th street. They had been living there three weeks, daily begging their food. The woman was the wife of a former well-to-do mechanic. The children were sent to a charitable institution and the woman will try to support herself.

Manilla.

MADRID, July 27.—The governor of Manila, telegraphing the minister of the colonies on the 25th inst., reports that the tower of the cathedral has fallen, but the body of the edifice remains standing. The Dominicans have abandoned the university. The archbishop's palace and the general's official residence are uninhabitable. Shocks continue though less violent. News from the provinces of the Phillipine islands is of the most gloomy nature.

Her Friends Astonished at the Wonderful Change in Her.

20 GRIFFITH STREET,
ROCHESTER, N.Y., Aug. 15, 1879.

H. H. WARNER & Co.: This is to certify that I was attacked with a kidney disease about four years ago, which brought me very low for about six months. I then grew better, but in February last the old disease returned in a more serious form than before. I employed four different physicians at different times, none of whom seemed to do me much good. They all said my disease would terminate in Bright's disease, and none of them gave me any encouragement that I could recover. My uncle then told me about your Safe Kidney and Liver Cure, and at his urgent solicitation I procured a bottle and commenced taking it about the 8th of the present month. I am now taking my second bottle, and feel that I am almost well. My improvement commenced as soon as I commenced using your remedy, and has been constant ever since, and I expect to be as well as I ever was in a few days more. My friends, as well as myself, are wondering at the change which has been wrought in me, and some of them wonder that I am still alive Gratefully yours,

CHAMPION PORTABLE SAWMILLS

George Book writes, St Anns, Ontario, June 17th, 1879, regarding his 16 horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill and move it, we tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days. In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes—inch lumber." Three sizes built—12 H.P. using 44 in. saw, capacity 3 to 4000 per day. 16 H. P. using 48 in. saw, Capacity 4 to 5000 per day. 20 H. P. using 52 in saw, No. 3 saw irons. Capacity 5 to 8000 per day.

TO BUSINESS MEN!

THE COLONIST has more than double the Circulation of any other Paper published in Victoria, and is the only Publication in the Province that receives Telegraphic Dispatches.

The Foresters' Fete.

The Foresters of this city will hold their annual demonstration to-day at the picturesque grounds of the Caledonian Society, situate on Cook street. Members of the order will meet at their hall, Government street, at 1 p.m. in full regalia, and having formed in procession order will march to the grounds. In the afternoon an excellent programme of athletic sports and games will be carried out, and as the prizes to be contested for are worth winning the entries will probably be numerous and the competition keen. The ladies have not been forgotten, an archery contest being reserved exclusively for their amusement. The grand tombola has already found a large number of willing investors and there can be no doubt that all the tickets now on hand will be rapidly disposed of on the grounds as the prizes are valuable and of real use. Professor Haynes' band will supply the music necessary to enliven the proceedings and the refreshment stands and bar will be under good management. With fine weather, therefore, the *fête* ought to be a signal success.

GOLDSTREAM HOUSE. — This beautiful place of resort is now open for the accommodation of the public. It is charmingly situated on the bank of Goldstream, about ten miles from Victoria, and the roads leading to it afford the most delightful drive on the Island. Board and lodging at reasonable rates. The bar is provided with the best of Liquors and Cigars. Pure Goldstream water supplied free of charge. This water smooths the wrinkles of the old, gives health to the sick, beauty to the young, and wisdom to all. For further particulars apply to A. GILMORE, Tailor and Clothier, Johnson street, or at The Goldstream House. dw

AT WIMBLEDON, on the 15th July, in shooting for the Queen's prize, Private Sargison of British Columbia scored 85. The highest score last year was 86, and the highest this year, 89. In the Alfred competition, Sargison made 31 out of a possible 35. For the Windmill prize Sargison made 32 out of a possible 35, Wilson of Ontario, the next highest, making 33.

CRICKET.—The return match between Victoria and H.M.S. Triumph commences at Beacon Hill at half-past 12 o'clock this morning.

The Way Ontario Views It.

The Orillia *Packet* "goes for" our sleepy-headed friend of the N. W. *Herald* in the following truthful style:

"After the New Westminster people had so long cried for the railway it is amusing to see how rude they feel the shock of bustle and activity which the work of construction is causing. The *Herald* is filled with bitter complaints—editorial, from correspondents, and selected—for the reason that, "while passengers and mails make the trip in a few hours less time than formerly," the boat from Victoria actually sometimes arrives in the night. Can it be supposed for one moment that the people of the Mainland capital will submit to have their quiet slumbers thus disturbed? Perish the railway, rather! Indeed, on more than one occasion prior to the 19th ult., the somnolent postoffice officials had marked their just resentment against boats which travel day and night, by leaving the mails for New Westminster to be taken on to Yale and back—for it appears the boat in returning touches at New Westminster while the sun is high. Will not the government order that all vessels carrying her Majesty's mails, or having on board engines, boilers, steamwhistles, or speaking-trumpets, or whose captain has been once convicted of permitting loud talking on board, shall be tied up outside the mouth of the Fraser river at "early candle light," and not leave its moorings until one hour after sunrise? If not, let Sir John look to his majority. This latest Tory outrage cannot be tolerated."

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, July 30.

George, a Songish Indian, arrested for stealing a fiddle the property of Alexander Collier.

Mr. H. C. Courtney appeared for the defendant.

The evidence adduced for the prosecution showed that the defendant had been working in the vicinity of Cadboro Bay road where the prosecutor lives. The prosecutor missed the fiddle, but heard it or a similar instrument being played in the direction of the defendant's house, about 200 yards distant. Officer O'Connor testified to proceeding to defendant's place and finding an Indian playing the instrument, and on being asked where he got it he pointed to the defendant.

For the defense it was shown that the prisoner had no intention of stealing the fiddle and that there was no attempt to conceal it. He had merely borrowed it to practice on, intending to return it.

His Honor said he did not think there was any intention to commit a theft and discharged the defendant on payment of costs.

John Silver, charged with being in possession of the skin of a deer contrary to the provisions of the Game Protection Act, was fined $5, in default of payment 10 days' imprisonment. The fine was paid.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, July 30.

Thornhill vs. Dawson—An action to recover $61 alleged to be due for boarding a horse. For the defense it was shown that when the defendant made the last payment of $30 it had been agreed that in future the account should stand against Messrs. Reed Bros. Judgment for defendant. Mr. J. R. Hett for the plaintiff, and Mr. R. E. Jackson for the defendant.

MARINE.—The steamer Etta White arrived in port last evening from Burrard Inlet having in tow the schooners Marcellus and Isabella laden with lumber for Moody & Co. . . . . The steamer Pilot arrived in Royal Roads at 6 p. m. having in tow the bark Germania laden with Wellington coal for San Francisco. . . . The steamer Beaver, having towed down a boom of logs from Comox to Carpenter's mill, Nanaimo, returned to port last evening. . . . The bark Mattie McLeay, laden with lumber at Hastings' mill for China, is ready for Sea. . . . The bark Sierra Nevada is beached at Departure Bay to have her hull cleaned. . . . The ship Belvidere, loading coal at Nanaimo for San Francisco, will be ready for sea about the middle of next week. . . . The schooner Dashing Wave, laden with Wellington coal, left Departure Bay yesterday morning for San Francisco. She has recently been on a sealing cruise north.

MUNICIPAL IMPROVEMENTS.—A special meeting of the City Council will be held at 10 o'clock this morning to take into consideration tenders received for the construction of new culverts and drains in various parts of the city. Bids have been sent in by Messrs. J. Huntington, Hy Carroll, Alex. Jack, J. C. Hutchinson, J. Coughlan, Jas. Jackson and Kinsman & Styles. The work will involve an expenditure of some $2200.

CORRECTION.—In the Chief Justice's judgment in Saunders vs. Reed Brothers instead of: "But by the Order-in-Council none of those English rules are to be in force at all unless and until declared to be applicable by the proper authorities," read, "But by the Order-in-Council not all of those English rules are to be in force here, but only such as may be declared to be applicable by the proper authority."

LAMBS.—The steamer Woodside arrived on Thursday evening last with 70 head of the finest lambs seen in Victoria this season. They were sold by Mr. E. Vinn of Metchosin to Messrs. VanVolkenburg & Co., and will be on exhibition at their market, corner of Yates and Government streets, this (Saturday) morning.

THE ATALANTA BENEFIT.—Preparations for the successful representation of the pieces to be performed at Theatre Royal for the benefit of the sufferers by the loss of the Atalanta are proceeding. Seats should be secured early at Redfern's jewelry store. A rehearsal will take place this evening.

TREASURE SHIPMENTS.—The Bank of British North America shipped $21,047 and Garesche, Green & Co. $7,808 to San Francisco per steamship City of Chester yesterday through Wells, Fargo & Co.'s office.

FOR SAN FRANCISCO. — The steamship City of Chester, Capt. Reichman, sailed from Esquimalt for San Francisco at noon yesterday, having on board the direct mails, Wells, Fargo & Co.'s express, $28,000 in treasure and some 30 passengers.

REMOVAL.—Dr. Geiger has removed his office from Government street to Duck's new building, Johnson street, near the corner of Broad street. *

BEACON HILL will present an animated appearance to-day—the riflemen and artillery in camp and a cricket match going on.

The Yale Fire.

The only insurance on the burned property at Yale was for $5,000 on the stock of Mr. Nelson, in the Imperial Company. There was no insurance on the other property destroyed. Nelson's safe was taken from the ruins of his store in a half-melted condition with all his books and papers and bankbills reduced to tinder. Onderdonk & Co.'s safes, three in number, failed to stand the fire-test and the contents are greatly damaged. The safe in the post-office also succumbed and the stamps, registered letters, etc., placed within it the night before disappeared in smoke and flames. York's hotel, in which the fire began, was built in 1858, but had been recently enlarged and improved. When an attempt was made to turn water on from the tank it was found that the pipe had been tampered with and was useless. There is great demand for lumber and other building material at Yale, and stacks of lumber, sashes and doors on the river have been brought up.

BOUND FOR ENGLAND.—Amongst the passengers who will leave here to-day for San Francisco on board the steamship Empire is Officer Richard Quain, who for some time past has been a very efficient member of the city police force He has at all times displayed activity and assiduity in the performance of the duties devolving on him and in his retirement the force will lose the services of a most able officer. He is bound for England on business of a private nature and carries with him the good wishes of all with whom he has come in contact, officially or socially.

THE BROKEN CABLE.—Mr. Jas. Wilson, Superintendent of Telegraphs, returned to town yesterday afternoon from the Sydney-Henry cable. As he was unsuccessful in his attempt to repair the cable in an open boat the steamer Sir James Douglas will probably leave with the cable-scow in a day or so, when the cable will be raised and any deficiencies made good from the new cable on hand. These repairs will occupy some time during which a ferry will be established; but we greatly fear that our news dispatches will be like angels' visits.

ST. CHARLES MUSIC HALL.—Mr. Luke Brant, stage manager of this place of amusement, has gone to San Francisco to make engagements with first-class artists to come up here for a short season. Mr. Edwards, the proprietor, promises a rare treat to the public on the arrival of the new company. Don't forget, a grand concert is given every evening, *

MR. MCNAMEE and Mr. Stewart reached town from Cowichan *via* Saanich on Thursday evening. While on the east coast they made a critical examination of the extensive stone deposits that exist thereabout.

A QUICK PASSAGE. — The H. B. Co.'s bark Lady Head has been spoken in the English Channel, 103 days from this port, the quickest passage on record.

COMING.—The steamship California sails from Portland at 7 o'clock this morning for Fort Wrangel and Sitka *via* this port.

THE steamer Cariboo-Fly left at 7 a. m. yesterday for Nanaimo with the mails and about 20 passengers.

THE wreck of the ship Thrasher will be sold at Clarke & Co.'s salesrooms at 2 o'clock this afternoon.

China.

HONGKONG, June 29., *via* San Francisco, July 26.—Former apathy respecting the arrival of the American commissioners, has changed to deep interest. Euger inquiries are made at Peking as to the object, scope and seriousness of their errand and as to the powers entrusted to them. Throughout China anxious feeling is expressed in consequence of their visit, being coincident with those of Spanish and Brazilian envoys. A peculiar suspicion of joint operation prevails and distrust of amicable intention is frequently declared in high quarters.

Col. Gordon has arrived at Hongkong and proceeds north immediately.

Efforts to suppress opium smoking in and around Nanking are vigorously continued by the viceroy of the province.

The Spanish minister, with legation attachés, is en route for Peking in a ship of war, unlike the Brazilian envoy who travels in a public steamer, having dispatched his national vessel to Japan.

The local authorities of Nanking have decreed the exclusion of American kerosene on the alleged ground that it is dangerous. The true reason is believed to be that it supplants native oil, in the growth of which many mandarins are interested largely.

Russian naval reinforcements are expected in these waters.

Prolonged conferences have been held at Tcenkin between Wade, British minister, and Li Hung Ching, viceroy of the Chihli provinces, on the subject of a possible war with Russia. Wade is reported strongly urging peace, Li generally agreeing in theory, though strangely discomposed by frequent secret dispatches from Peking. The question of a Russian war is still undecided, opinions totally at variance are expressed with equal force and conviction in circles where opportunities of knowledge are supposed to be best. A small majority is apparently confident of a peaceful issue.

Japan.

YOKOHAMA, July 10.—The mikado is still pursuing his central and southern tour. He returns to Tokio July 25th.

The French and Italian ships of war, the latter commanded by the Duke of Genoa, are reported about to visit Corea with proposals for treaties.

The United States minister and commissioners to China arrived at Japan on the 8th, and after a few days will proceed to China, probably in the U.S. ship Ashuelot or Richmond, assigned for that purpose.

The Russian Army.

A German military paper remarks that while undoubtedly when the Emperor Nicholas was on the throne exaggerated ideas were entertained of the power of Russia, it is nevertheless an equal mistake to describe Russia as "a Colossus with feet of clay." The great mass of Germans are, in fact, today, the writer continues, as ignorant of the military resources and strength of Russia as the French were of those of Germany prior to the war of 1870-71. The Russian is naturally peacefully inclined and dreads military service—not perhaps, as he did formerly, because he feared that he would be subject to ill treatment, but because he dislikes work. Once drafted into the ranks of the army, however, he becomes an excellent soldier, obeying orders readily not through mere Slavonic submissiveness, as is often asserted, but because he is imbued with a childish reverence for every authority, and a simple trust in his superiors. So long, therefore, as he remains under the immediate control of his leaders—as in a troop in compact formation—he fights well; but when he is called upon to act more or less independently—as when extended in skirmishing order—he fails to do much; and this not because of any lack of courage, but because he instinctively looks for one to guide and direct his every movement. With regard to the army itself, the German writer observes that, although a system of universal compulsory service obtains in Russia, the number of educated men in the ranks is so extremely small, and the gulf between the educated and uneducated man is still so well defined and deep, that the former exercises little or no influence upon the general tone of the service. At the same time the army is doing a good work in Russia in that every year it instills into thousands of recruits habits of order, cleanliness and activity, and represses, as far as strict discipline can, the national vice of drunkenness. The military education of the Russian soldier is, however, still hindered by many circumstances. Among the chief of these are the want of barrack accommodation and of large towns in the interior, which necessitates a great dispersion of the men in small detachments; the insufficiency of the provisions supplied to the soldier, which obliges the latter to work for wages for a part of every year, and the great length of time taken in teaching the men to read and write. On the other hand, this same unavoidable dispersion of the troops has led to the formation in Russia of an unusually large number of camps of exercise. Altogether, the German writer believes that Russia is now energetically engaged in a systematic development of her military resources and that her army consequently threatens to become a formidable adversary. The present strength of the army is estimated at 1,750,000 combatants, and, even allowing for the deductions which must be made to provide garrisons for her vast interior, the German writer believes that Russia would still be able to assemble a force which numerically would not be inferior to the army of any other European power. Russia has only to provide for the defence of her western frontier, and not for attack on all sides, as Germany has; and even supposing her first line of defence forced, the prevailing geographical and climatic conditions would render a march on St. Petersburg or on Moscow no easy task for an invader.

Gladstone in the House.

"There is one man on whom the responsibilities of the present and care for the future lie heavily. No one looking at the pale, thoughtful face of William Ewart Gladstone as he lolls on the front treasury benches listening to the interminable talk, talk, talk that goes on from one side or the other of the House, could for a moment esteem him the possessor of a light heart. The sparse gray hair carefully eked out to shade the bald, white cranium; the deeply furrowed face and sunken eyes and a peculiar straining at the corners of the mouth tell of a life of constant mental anxiety. When in repose the pallor of the face lends the hand an almost death-like appearance. On every feature anxious thought and unremitting work are written. Sometimes, as the livid head, with closed eyes, rests on the dark morocco of the benches, immoveable and seemingly asleep, a sense of fear creeps over the beholder that the eyes will never open again, and that the great Minister has passed away to his long rest amid a familiar hum of voices echoing through St. Stephens'. Even while those thoughts are floating through the mind the eyes open, a moment later the old man eloquent rises "to make a few remarks." Incautiously some adversary has made a statement weak in some essential point or damaging from its blunt directness. It is necessary for the Government to explain its force away. In a voice low, but clear and distinct, singularly musical in its inflections, Mr. Gladstone proceeds to set his "honorable friend" right. The large dark eyes light up wonderfully and the pallid face loses its rigid outline and assumes a mobility that permits it to express every passing impression of the mind. Kindly benevolence, anger and contempt are as plainly written on the face as though his thoughts were labolled, and often in administering a rebuke the House is more influenced by his manner than by the words he utters. As an orator he is cleared and lucid rather than powerful. Much of the effect of his speeches is due to the profound respect in which his abilities are held by all sections of the House. There are many men in the House whose oratorical method is far superior, but they lack the wide information which makes Gladstone's speeches a kind of spoken essay on things in general. His method is decidedly discursive, and in dealing with matters even of slight importance he seems to exhaust all aspects of the question once he undertakes to speak on it all. Hence it is that when he "rises to make a few remarks" he generally says enough to fill a column or two of very close print in the morning newspapers. Yet he is never dull. There is a suavity in his manner and a musical cadence in his periods which exercise a potent but soothing influence over the mind. It is this charm which prevents Gladstone from becoming tiresome. There is also a keen mental pleasure in watching the wonderful subtlety of his language, his nice distinctions, displaying remarkable lucidity and delicacy of thought combined with vast mental power. When he has spoken whoever follows him appears at disadvantage, and one is filled with regret, looking at his time-wasted figure, that his days are numbered, for the old intellectual gladiator leaves none behind to worthily fill the gap when he has gone.—*Cor. Herald.*

NO RISK.

Thomas' Eclectric Oil! Worth Ten Times its Weight in Gold. Do you know anything of it? If not, it is time you did.

Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common SORE THROAT. One Bottle has cured BRONCHITIS. Fifty cents' worth has cured an OLD STANDING COUGH. One or two bottles cures bad cases of PILES AND KIDNEY TROUBLES. Six to eight applications cure ANY CASE OF EXCORIATED NIPPLES OR INFLAMED BREAST. One bottle has cured LAME BACK of eight years' standing. Daniel Plank, of Brookfield, Tioga County, Pa., says: "I went thirty miles for a bottle of your Oil, which effected a WONDERFUL CURE OF A CROOKED LIMB by six applications." Another who has had ASTHMA for years, says: "I have half of a 50 cent bottle left, and $100 would not buy it if I could get no more."

Rufus Robinson, of Nunda, N. Y., writes: "One small bottle of your ECLECTRIC OIL restored the voice where the person had not spoken above a whisper in FIVE YEARS." Rev. J. Mallory, of Wyoming, N. Y., writes: "Your ECLECTRIC OIL cured me of Bronchitis in one week."

It is composed of SIX OF THE BEST OILS THAT ARE KNOWN. Is as good for internal as for external use, and is believed to be immeasurably superior to anything ever made. Will save you much suffering and many dollars of expense.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. In the Whole History of Medicine

No preparation has ever performed such marvelous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering and often saving life. The protection it affords by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. For sale by all dealers. 1dw

Gained Eight Pounds in Ten Days.

ALEXANDRIA BAY, N.Y., August, 1879.

H. H. WARNER & Co.: A short time ago I was almost a skeleton from a chronic kidney disease of long standing, and was anticipating speedy death, three of the best physicians in Northern New York and Canada having treated me without benefit. I then commenced taking your Safe Kidney and Liver Cure, and in two weeks it has completely restored my health and I am as hearty as I ever was. My disease had reduced my weight from 180 to 130 pounds, and it was still lessening when I commenced taking your medicine. I then gained eight pounds in ten days' time. I am astonished at my rapid cure, and so are others.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

A BYLAW

FOR RAISING A MUNICIPAL REVENUE ON REAL AND PERSONAL PROPERTY IN THE YEAR 1880.

1. Be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:—

2. There shall be raised, levied and collected in the year 1880 upon all real and personal property mentioned in the assessment roll in force in the City an equal rate of eight-tenths of one per cent. on the assessed value thereof as appears by the said roll.

3. The aforesaid taxes shall be due and payable by the person or persons liable for the same to the Collector for the Municipal Council at his office in the City Council Chambers, Victoria, on the fifteenth day of July, in the year 1880.

4. The Victoria Revenue Bylaw, 1879, so far as the same relates to the imposition of a tax or rate of eight-tenths of one per cent. in the year 1880 upon the assessed value of the real and personal property mentioned in the assessment roll for the time being in force is hereby repealed providing always that all payments of the said rate for the year 1880 already made by any person or persons shall be dealt with in the same manner and be as valid in all respects as if the same had been made after the passing of this Bylaw and under the provisions thereof.

5. The special rate imposed by the Water Works Debenture and Revenue Bylaw, 1877, and by the Bylaw to authorize the raising of twenty thousand dollars, 1878, shall continue to be raised, levied and collected in addition to all rates and taxes imposed under this Bylaw and shall be applied to the purposes specified in the said Bylaws respectively.

6. The annual tax authorized to be assessed, levied and collected by the Victoria Road Tax Bylaw, 1877, as amended by the Victoria Road Tax Amendment Bylaw, 1877, shall continue to be assessed, levied and collected in addition to the rates and taxes imposed by this Bylaw and shall form part of the general Municipal Revenue.

7. Clause 10 "The Victoria Revenue Bylaw, 1879," is hereby amended by striking out the word "three" immediately before the word "calendar" in the last line thereof and inserting in lieu thereof the word "one."

8. Schedule A of "The Victoria Revenue Bylaw, 1879," is hereby amended by inserting therein after the words "Every proprietor or manager of any theatre within the City limits for a single entertainment $5" the following words "and for a week $15," and by inserting therein after the words "and for the minor exhibitions for single entertainments $2 50" the following words "and for a week $7 50." And by striking out the figures $10 after the words "every commercial traveller" and inserting in lieu thereof the figures $20.

9. The Victoria Revenue Bylaw, 1879, as amended by the Victoria Amendment Revenue Bylaw, 1879, and by this Bylaw shall continue in force and all licenses and taxes imposed thereby shall continue to be collected thereunder.

10. This Bylaw may be cited as the Revenue Bylaw, 1880.

Passed the Municipal Council June the 29th, A.D. 1880.

J. H. TURNER, MAYOR.
WILLIAM LEIGH,
Clerk of the Municipal Council,
Victoria, B.C. jy3

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking;
If you are fond of chewing and smoking
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Ih vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never grind;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of [illegible] and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

DYSENTERY, CHOLERA FEVER AGUE, COUGHS, COLDS.

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. Collis Browne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
